

There's No Limits

The ability to instantly change commercial, retail or domestic interiors with virtually limitless options is now a reality, due to a revolutionary new magnetic system called 'magnIQ' designed and created by in-store display experts, Rare Basics. The magnIQ system enables a range of shelves, displays, hooks and accessories to be mounted on flat walls and even round columns, enabling designers and architects to maximise every inch of interior space. Because the system relies on specially designed and unique high-powered weight-bearing magnets, there are

no awkward fixings to screw or hammer and interiors can be re-arranged in an instant. magnIQ panels are available in a wide range of different colours and finishes that include leather and wood effect, metallic, or can be covered with graphics or fabrics. The system has applications across almost every commercial, retail and domestic market sector, from hotels and offices to commercial and retail premises. For further information, telephone Rare Basic Ltd on 0208 348 9888, email mail@rarebasic.co.uk or visit www.rarebasics.co.uk.
